

Lights Out for Birds – Spring Migration

Sample Language for Social Media

SAMPLE PARAGRAPH FOR EMPLOYEE/BUILDING NEWSLETTER

Lights Out for Birds

Save birds' lives during spring migration by turning out office lights at night! Migrating birds are drawn by bright urban lights and often die in building collisions. What you can do: Turn off building lights at night. And when you need to work late, draw the blinds or use task lighting instead of overhead lighting. Spring migration season lasts from February 15 through May 31, but turning off lights at night can save energy and money year-round. For more info, see <http://www.goldengateaudubon.org/conservation/make-the-city-safe-for-wildlife/learn-about-lights-out-san-francisco/>

SAMPLE FACEBOOK MESSAGES:

(1) Spring migration is here! Turn out building lights at night to reduce bird-building collisions. And if you need to work late, draw the blinds or use task lighting instead of overhead lighting. The 200 species of birds that migrate through the Bay Area will thank you.

(2) Did you know that ONE downtown Chicago office building reduced bird deaths by 80 percent when it turned out its lights at night? Help reduce bird-building collisions by turning out lights at night. Or if you need to work late, draw the blinds and use task lighting.

(3) Migrating Bird of the Week: **XXXXXXX (name of bird, with photo)** Protect this little guy and other Bay Area migrants by turning out building lights at night. Or if you need to work late, draw the blinds and use task lighting to prevent bird-building collisions.
